Trident Health Resources, Inc. Recognizes its Employees for Excellence in Perfusion Services At Top Heart Hospital: JFK Medical Center

March 5, 2010 (Dunedin, FL). Trident Health Resources, Inc., a leading national cardiovascular perfusion services provider for 22 years, recognizes its employee perfusionists for their fine work at JFK Medical Center in Atlantis, FL. JFK received the highly coveted designation as a Top 100 hospital for cardiovascular surgery by Thomson Reuters for 2009. JFK is one of only four Florida hospitals to earn this benchmark recognition which is based upon patient outcomes studied within 971 hospitals.

"Our perfusion staff have a critical role in open heart surgeries and are among the finest, most accomplished group of professionals in the nation," said Ralph Jordan, Trident CEO & President. "Our perfusion team has been working together at JFK for several years and is truly dedicated to their chosen profession."

Jordan acknowledged the following perfusionists: Anton Johnson, CCP, who is Chief Perfusionist at JFK, Patrick Duvet, CCP, and Timothy Gannon, CCP who comprise the perfusionists who operate the heart lung machines during open heart surgeries. The perfusionists assist world-renowned surgeons, Dr. Malcolm Dorman and Dr. Lancelot Lester at JFK Medical Center.

"The surgeons and hospital staff at JFK are talented professionals and we are proud to be an integral part of their cardiovascular program. JFK serves as a model account for Trident, representing our mission to provide excellent patient care," Jordan said. "We want to continue to develop more accounts like them across the nation."

A celebration event is being planned for the future.

Trident provides 24 hour coverage, 365 days per year for all open-heart procedures on both a long term contract and locum tenens basis. Since 1988, Trident introduced what is now a clearly proven concept that works: hospitals using outside, certified providers of cardiovascular technology and advanced services.
